

Anastasia Muzhzhavlev

Full Stack Software Engineer

anamoose.dev@outlook.com | 719-285-5610 | [GitHub](#) | [LinkedIn](#) | Westcliffe, CO

TECHNICAL SKILLS

- **Backend:** Node.js, Python, Flask, Express, REST APIs, Sequelize, SQLAlchemy
 - **Frontend:** JavaScript, TypeScript, React, Next.js, Redux, HTML, CSS
 - **Tools & Database:** PostgreSQL, SQLite, SQL, Git, JSON, CLI
-

PROJECTS

Wildorado | React, Redux, Python, Flask, SQLAlchemy, SQLite3, PostgreSQL | [GitHub](#) | [Live](#)

- Designed animated landing carousel (Framer Motion) and dynamic location slides (react-slick)
- Developed responsive search, category filtering, and pagination using React Router query parameters
- Built event discussion UI with inline comment editing and relative timestamps (moment.js)
- Integrated dynamic location maps using OpenStreetMap API with react-leaflet
- Created scalable RESTful APIs with Flask and SQLAlchemy for search, filtering, and sorting
- Structured normalized database with relational models, foreign key constraints, and Alembic migrations

Artsy | Flask, Python, SQLAlchemy, React, Redux | [GitHub](#) | [Live](#)

- Created dynamic cart interface with React hooks (useState, useEffect) and Redux thunks
- Designed checkout form with custom field validation and conditional UI rendering based on user input
- Built RESTful APIs for cart and order management with model associations and foreign key constraints
- Led cart functionality development and collaborated with a team of 4 engineers during code reviews

JA-Vacation | Express, Sequelize, React, Redux | [GitHub](#) | [Live](#)

- Developed interactive UI with modals and listing forms validated via React hooks
 - Utilized useState and onClick handlers for modal flow and dispatching Redux actions
 - Co-developed RESTful APIs with model associations, cascade behavior, and custom nested includes for efficient data querying
-

EXPERIENCE

- **Frontend Developer Intern** | LVC Solutions | April 2025 – Present (Remote)
-

EDUCATION

- **App Academy** (April 2024 - April 2025) — Full Stack Web Development Bootcamp
 - **CYDEO** (January 2023 - October 2023) — Software Development Engineer in Test Bootcamp
 - **Ukrainian Kyiv National University of Construction and Architecture** (2005–2010), Bachelor's degree in Business Management
-

LANGUAGES

- English, Russian, Ukrainian
